FADIME RENÉE STEMMER

266 Woods Hole Road, MS51, 02543 Woods Hole, MA, USA
fstemmer@mit.edu

EDUCATION

MIT/WHOI Joint Program in Oceanography September 2023 - Present
PhD in Chemical Oceanography and Marine Biogeochemistry
Department of Earth Atmospheric and Planetary Science, Cambridge, MA
Department of Marine Chemistry and Geochemistry, Woods Hole, MA

MIT/WHOI Joint Program in Oceanography September 2023 - September 2025
M.Sc. in Chemical Oceanography (GPA: 4.0/4.0)
Department of Earth Atmospheric and Planetary Science, Cambridge, MA
Department of Marine Chemistry and Geochemistry, Woods Hole, MA

Waseda Univerity, Tokyo, Japan April 2022 - September 2022
B.Sc. in Biosciences (GPA: 3.89/4.0)
Exchange Semester with focus on Biosciences and Japanese language.

Technische Universität München September 2019 - April 2023
B.Sc. in Biochemistry (GPA: 3.73/4.0)
Fakultät für Chemie, Garching, Germany

RESEARCH EXPERIENCE

Graduate Research Assistant, MIT/WHOI Joint Program in Oceanography
September 2023 - Present

- Identified transport proteins involved in the export of proteases and peptidases by marine heterotrophic bacteria for degradation of proteinaceous organic matter.
- Developed an LC-MSMS based method to characterize the cleavage specificity and rate of unknown proteases.
- Characterized the rates of enzymatic protein degradation by marine proteases and heterotrophic communities in culture and in the field.
- *Skills and Tools*: Proteomics, Microbiology, LC-MSMS, UV/Vis Spectroscopy, Fieldwork, Proteome Discoverer, Fragpipe, Scaffold, Skyline, DIA-NN

Graduate Research Assistant, Institute of Structural Biology of Helmholtz Zentrum Munich
January 2023 - August 2023

- Expression, purification, structural, and biophysical characterization of C19orf12, a protein with unknown function whose mutations cause mitochondrial membrane protein associated neurodegeneration (MPAN).
- *Skills and Tools*: Topspin, MestReNova, Nuclear Magnetic Resonance Spectroscopy, LC-MSMS, SAXS, SANS, X-ray crystallography, Electron Microscopy, UV/Vis Spectroscopy

Undergraduate Researcher, Technical University of Munich, Department of Chemistry, Center for Functional Protein Assemblies (CPA)
November 2022 - December 2022

- Expression, purification, and structural investigation of the archaeal 20S proteasome, the enzyme LaeA involved in gliotoxin biosynthesis, and t-RNA modifying enzymes.
- *Skills and Tools*: X-ray crystallography, Cryo-Electron Microscopy, Coot

Undergraduate Researcher, Technical University of Munich, Department of Chemistry, Center for Functional Protein Assemblies (CPA)
August 2021 - September 2021

- Synthesis of promising antibacterial molecules that target the ClpXP complex - a key protein complex for toxin production in bacteria.

· *Skills and Tools*: MestReNova, Nuclear Magnetic Resonance Spectroscopy, LC-MSMS, Organic synthesis.

FIELD WORK

NSF C-CoMP cruise AE2520 on R/V *Atlantic Explorer*,
Bermuda (BATS) to Woods Hole (NES-LTER). Cruise Report — September 2-15, 2025

NSF C-CoMP cruise AE2504 on R/V *Atlantic Explorer*,
Bermuda (BATS) to Woods Hole (NES-LTER). Cruise Report — March 9-22, 2025

TEACHING EXPERIENCE

Teaching Assistant for 17.925 - MIT Science and Technology Policy Bootcamp January 2027 - January 2027
MIT, Department of Political Sciences

· One week intensive course on the fundamentals of innovation systems and the economic and technology development factors, and to build a framework to approach science and technology policymaking.
· Curriculum design, invite speakers and panelists, grading essays and student presentations.

Teaching Assistant for 12.384/21H185/STS005 LIVING DANGEROUSLY: Environmental Problems from 1900 to Today February 2025 - May 2025
MIT, Department of Earth Atmospheric and Planetary Sciences

· Conducting office hours.
· Correcting student essays.

Teaching Assistant for 12.742 Marine Chemistry September 2024 - December 2024
MIT, Department of Earth Atmospheric and Planetary Sciences; WHOI, Department of Marine Chemistry and Geochemistry

· Conducting weekly office hours and recitations
· Correcting student assignments and exams.

Academic Tutor for Molecule Structure and Spectroscopy April 2022 - August 2022; April 2023 - August 2023;
TUM, Department of Chemistry

· Holding weekly office hours and tutoring sessions.

CERTIFICATIONS

Computational and Statistical Skills for Mass Spectrometry and Proteomics,
Northeastern University — issued June 2026
Graduate Teaching Development Certificate,
MIT — issued June 2025
JLPT N2,
The Japan Foundation — issued January 2025
TOEFL,
ETS Score: 111 — issued May 2021 · Expired May 2023
DELF, B1,
Ministère de l'Éducation nationale et de la Jeunesse — issued October 2016

VOLUNTEERING

- Bootcamp Chair, *MIT Science Policy Initiative* — September 2026 - May 2027
- Fundraising Chairperson, *Graduate Climate Conference* — March 2026 - Present
- External Relations Chair, *MIT Science Policy Initiative* — September 2025 - May 2026
- Co-Chair, *Graduate Climate Conference* — March 2025 - March 2026
- Advisor, *MIT European Career Fair* — April 2025 - March 2026
- Vice President, *MIT European Career Fair* — April 2024 - March 2025
- Company Outreach Chair, *MIT European Career Fair* — September 2023 - March 2024
- Team Lead Sorbent Development, *TUM Carbon Removal Initiative* — August 2021 - August 2023
